to be very ill at present. No administrative experience.

19. General Affairs (Tribal Affairs) Pacha Gul - Lt Col Capt

Reported to be a member of the Central Committee. No other information immediately available.

20. According to the radio announcement, "Commerce and Other Ministries" will be announced later. Planning will be under close supervision of Pres Daud and may even disappear as a separate ministry.

21. It has also been reported that the Republic government has recalled all Afghan ambassadors to Kabul. We are attempting to verify.

Comment: This government is a peculiar hodgepodge and our initial impression is that it may be neither very effective nor capable of acting in unison. This may give Daud additional power as an arbitrator. It is likely that it represents a compromise between Daud and the Central Committee, but a compromise which favors Daud. The young officers control three ministries, Interior, Public Works and Tribal (Border) Affairs, of which only Interior is important for the control of the country. In the recent days, however, it became clear that the police (Interior) are no match for the Army (Defense). Possibly the Ministers of Communications and Finance should be added to the Central Committee since but the chances of a young, inexperienced man lasting in the bruisingly competitive atmosphere of the Ministry of Finance is doubtful. Perhaps that is why he is there.

Planning, it was reiterated to Ambassadors, will remain solidly under Daud's control and that is likely where the economic muscle will

be.
